Portfolio | GitHub: KARTHIK9124 | LinkedIn: karthik-r | Karaikudi, Tamil Nadu

PROFESSIONAL SUMMARY

Backend-focused Software Developer with 2 years of experience building scalable Python-based applications in healthcare and enterprise domains. Specialized in designing and deploying AWS Lambda functions, RESTful APIs (FastAPI, Flask), and serverless architectures. Contributed to comprehensive hospital management systems with modules for patient management, billing, pharmacy, lab operations, and inpatient tracking. Proficient in full-stack development with React Native and Flutter, database optimization (MySQL, DynamoDB), and implementing CI/CD pipelines with Jenkins.

EDUCATION

- Shanmuganathan Engineering College** Pudukkottai, Tamil Nadu
Bachelor of Engineering - Computer Science and Engineering; CGPA: 7.74 July 2019 - April 2023

SKILLS

- Languages:** Python, Dart, JavaScript, SQL, HTML, CSS
- Backend and APIs:** Python, FastAPI, Flask, AWS Lambda, RESTful APIs, Serverless Architecture
- AWS Cloud:** Lambda, DynamoDB, Cognito, API Gateway, S3, IAM, EC2, Step Functions
- Databases:** DynamoDB, MySQL, SQLite
- Frontend/Mobile:** Flutter, React.js, React Native, Tailwind CSS
- DevOps and Tools:** Docker, Jenkins, Git, GitHub, Postman
- Architecture:** Microservices, Multi-tenant SaaS, Clean Architecture, Lambda Layers

EXPERIENCE

- MaGa Tech Gramam Pvt Ltd** Karaikudi, Tamil Nadu
Software Developer Feb 2025 - Present
 - Full-Stack Development:** Developed backend APIs using Python Flask and AWS Lambda functions for AroCord App and AroCord Insights hospital management platform. Built React Native mobile features and frontend integrations. Implemented AWS Cognito authentication, managed EC2 deployments, automated workflows using Lambda and Step Functions, and established Jenkins CI/CD pipelines.
- Qicpic Innovations Pvt Ltd** Mangalore, Karnataka
Software Developer May 2024 - Dec 2024
 - API Development:** Designed and implemented 300+ FastAPI endpoints for production applications, managed data consistency, optimized database queries, and handled seamless production deployments focusing on scalability and reliability.

PROJECTS

- AroCord Insights - Hospital Management Platform:** Developed 25+ AWS Lambda functions (ZIP and Docker-based) for comprehensive hospital management including patient management, doctor profiles, inpatient tracking, billing, pharmacy, lab, discharge, and ward/bed allocation. Implemented AWS Cognito + JWT authentication, MySQL with connection pooling, and CI/CD pipeline with Jenkins.
- AroCord App - Medical Practitioners Platform:** Built a medical features application using Python Flask for backend APIs and React Native for mobile frontend. Implemented secure authentication with AWS Cognito, deployed on AWS EC2, and automated workflows using Lambda and Step Functions. Integrated Jenkins CI/CD pipeline for continuous deployment.
- StayBy - PG Management SaaS:** Built a multi-tenant SaaS platform using Flutter, Python FastAPI, and AWS serverless architecture (Lambda, DynamoDB, Cognito). Features include room management, tenant tracking, payment processing, expense management, staff roles, and real-time notifications. Implemented clean architecture with 50+ Lambda functions.

CERTIFICATIONS

- Python Full Stack Development Course (6 Months) - Pyspiders
- IBM Data Science Professional Certificate (Python for Data Science, SQL and Relational Databases, Machine Learning with Python)
